

FLASHVIEW™

Model No: VSPV13M3G

Video Alert Notification – In a Flash!

Megapixel camera to smartphone in a **FLASH VIEW** real time video at the touch of a button

STAY CONNECTED WITH ALL THAT YOU LOVE!®

Now you can install your camera ANYWHERE!

Watchguard™ - FLASHVIEW™ Series - VSPV13M3G is a megapixel internet protocol camera with a wireless 3G modem router. Simply unpack, mount and power up the included modem and camera. You can then instantly connect to the camera on your iPhone or Android device. When movement is detected in the monitoring area, it will automatically record and send an alert to you via a data connection (not a phone call or sms or mms). You can immediately view the alert video and live stream via smartphone, iPad or PC (email). The alert function can be turned on/ off via your smart phone.

Connect the camera to the Wireless 3G Modem. When motion is detected in the monitoring area, video recording is activated.

The Flashview™ VSPV13M camera will immediately send video notification to your mobile **via your data connection** (not a phone call or sms or mms)

You can then remotely access your camera to view it LIVE or playback the event
